## INDUSTRY:

Financial Services

# ABOUT THE CLIENT :

A leading financial services organization was looking to modernize its IT infrastructure. After engaging with their internal IT team, it was identified that the firm needed to upgrade its existing systems in three critical areas:

- High-performance endpoint computing
- Reliable and secure networking
- Robust email archiving and backup

## THE APPROACH:

Following a detailed assessment of their operational workflow and infrastructure gaps, we proposed a comprehensive, scalable solution tailored to meet their needs:

#### OFFERINGS:

- Apple Hardware
- Networking Enhancement
- Email Backup & Security

## SOLUTIONS OFFERED:

### ✓ Apple Hardware:

Deployment of MacBook and iMac systems to enhance productivity and deliver seamless computing experiences for their workforce. Focus on performance, security, and long-term scalability.

### ✓ Networking Enhancement:

Aruba Access Points, deployed with a heatmap-based layout design to ensure strong, uninterrupted wireless connectivity across the premises. Ensured intelligent coverage, minimizing dead zones and optimizing bandwidth usage.

### ✓ Email Backup & Security:

Barracuda Email Archive to ensure secure, reliable, and easily accessible backups of email communications. Reinforced with advanced threat protection and compliance readiness.

# OUTCOMES:

- **Improved Endpoint Efficiency:** Faster workflows and reduced IT tickets related to device performance.
- **Seamless Connectivity:** Enhanced user experience across all departments due to optimized wireless infrastructure.
- **Secure Communication:** Peace of mind with robust email archiving, meeting compliance and retention policies.
