ABOUT THE CLIENT :

INDUSTRY:
Technology & Consulting

A fast-scaling technology company was facing operational hurdles in managing their endpoint devices. Their key requirement was a seamless leasing model for hardware acquisition and a reliable mobile device management (MDM) solution to control and monitor devices effectively.

OFFERINGS:

- Apple Hardware
- Financial Services
- Device Management(MDM)

SOLUTIONS OFFERED:

✅ Apple Hardware:

- Deployment of MacBooks to ensure powerful, secure, and consistent performance across technical and non-technical teams.
- Ideal for development environments, creative work, and business productivity.

✅ Financial Services:

- Partnered with Orix to offer a flexible leasing model, enabling the customer to adopt the latest Apple devices without upfront capital expenditure.

✅ Device Management (MDM):

- Deployed Scalefusion, a comprehensive Mobile Device Management platform for complete control over enrolled devices.
- Provided features like policy enforcement, app control, remote support, and device tracking.

OUTCOMES:

- **Modernized Endpoint Ecosystem:** MacBooks empowered the workforce with seamless performance and improved user experience.
- **OPEX-Friendly Leasing:** Financial flexibility enabled the company to scale their IT hardware without capital lock-in.
- **Centralized Device Security:** Scalefusion ensured compliance, remote control, and visibility over all deployed devices.
