

Transforming Pharmaceutical Operations with Seamless Wireless Connectivity

CUSTOMER SUCCESS STORY

ABOUT THE CLIENT:

The client is a leading Indian **pharmaceutical company** with a diverse product portfolio and consumer healthcare solutions. The organization emphasizes **affordability, accessibility,** and has an extensive distribution network, including rural markets, supported by a large workforce and manufacturing facilities.

INDUSTRY:
PHARMACEUTICAL

BUSINESS CHALLENGES

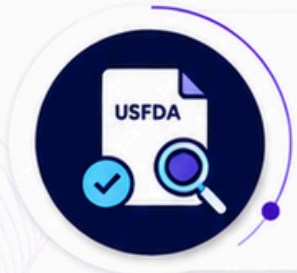

Difficulty establishing high-speed, seamless, and secure connectivity across the manufacturing plant.

01

Struggles in enabling a digital workplace at the Paonta Sahib unit.

02

Challenges in meeting USFDA audit requirements during the COVID-19 period.

03

Limited visibility and connectivity for IoT-enabled production monitoring.

04

TECHNOLOGIES USED

Aruba Wireless
Enterprise Networking Solution

Wi-Fi 6-enabled Infrastructure

IoT Device Integration

Heat-mapping &
Access Point Deployment

SOLUTIONS OFFERED

BUSINESS IMPACT

High-Speed & Seamless Connectivity

Established high-speed, seamless, and secure wireless connectivity across the plant.

USFDA Audit Success during COVID-19

Successfully cleared USFDA audit during the COVID-19 pandemic with zero observations.

Real-time Production Monitoring

Enabled real-time production monitoring through IoT integration for better visibility.

Improved Logistics Handling

Improved logistics handling with enhanced connectivity across warehouses and hubs.

Operational Efficiency & Local Empowerment

Increased operational efficiency with local IT empowerment and dedicated support.
